

Kubus – Efficient light from the box

Architectonic bollard luminaires for precise washlighting in the outdoor area

During the day, the Kubus bollard luminaire is all but an inconspicuous architectural feature – at night, however, it excels with exquisite light. Used along traffic routes, Kubus provides optimum visual comfort and reliable orientation for passers-by. Two different light distributions complement each other beautifully: The wide-beam version neatly marks the way, the deep-beam version ensures optimum illumination of squares or terraces. In perfect understatement, Kubus combines highly efficient,

cutting-edge and maintenance-free optoelectronics with a very discreet appearance.

Structure and characteristics

The features described here are typical of products in this range. Special versions may offer additional or varying features. A comprehensive description of the features of individual products can be found on our website.

1 Lens

- Softec lens as protective glass
- Wide distribution sculpture lens or narrow distribution prism lens

2 ERCO LED-module

- High-power LEDs: warm white (3000K) or neutral white (4000K)
- Collimating lens made of optical polymer

3 Luminaire housing

- Graphit m
- Corrosion-resistant cast aluminum, No-Rinse surface treatment
- Double powder-coated
- Optimized surface for reduced accumulation of dirt

4 Bollard

- Corrosion-resistant aluminum profile, No-Rinse surface treatment
- Graphit m, double powder-coated
- Luminaire and bollard must be installed on location

5 Control gear

- Switchable

6 Base plate

- For mounting on accessories
- Mounting accessories to be ordered separately

Suitable for wet locations (IP65)

Dust-proof and water jet-proof

Variants on request

- High-power LEDs: 3000K CRI 97 or 2700K, 3500K, 4000K with CRI 92
 - Housing: 10,000 further colors
- Please contact your ERCO consultant.

Kubus Bollard luminaires

Different light distributions: wide or deep

Floor washlights with a wide beam are ideal particularly for lighting pathways along walls and façades. Floor washlights with a deep beam are effective in illuminating open spaces such as squares or terraces.

Special characteristics

Different light distributions: wide or deep

ERCO high-power LEDs

Dark Sky technology

Different light colors

Excellent thermal management

EMC-optimized

Wet location

Accessory for mounting variants

Switchable

Kubus Bollard luminaires – Luminaire arrangement

Floor washlights
Wide beam, Deep beam

Washlighting
Kubus bollard luminaires with wide beam light distribution directed forward provide subtle light for a glare-free and uniform illumination of pathways.

The spacing between two luminaires may be up to 6ft. The luminaires may be spaced apart even further for visual guidance.

Arrangement: $d \leq 6\text{ft}$

Kubus bollard luminaires with deep beam light distribution directed forward provide subtle light for a glare-free and uniform illumination of open areas.

The spacing between two luminaires may be up to 6ft. The luminaires may be spaced apart even further for visual guidance.

Arrangement: $d \leq 6\text{ft}$
