

Light+Building is the best place to get an overview of the latest topics and issues in the lighting industry, for both creative and technical designers. This year the ERCO booth is devoted to the interaction between inspiration and technology – the interface at which new lighting solutions are created.

Please drop in and see us in Hall 3.0!  
Discover the latest generation of digital lighting tools from ERCO. Thanks to proprietary development of optoelectronic systems, our innovations offer many different features that facilitate and enhance practical design and planning. We look forward to seeing you.
