Quintessence round – The system solution for excellent visual comfort

High visual comfort and optimum light quality – in indoor and outdoor areas
Quintessence recessed luminaires now take the visual comfort and the light quality of downlights, wallwashers and directional luminaires into the outdoor area. The new optical systems of the downlights and wallwashers achieve high uniformity with good glare control, making them superb for extensive illumination in large areas. The exceptionally wide light distribution of the downlights with a 90° emission angle and a 40° cut-off produces highly uniform and glare-free light, with luminaires that are spaced far apart. For precise accentuation, the optical system of the directional luminaires can be tilted by 20° and rotated through 360°. With a protection rating of IP65, Quintessence recessed luminaires are the efficient lighting tool for perception-orientated lighting concepts in outdoor areas with canopies and for indoor applications that call for a high degree of protection against moisture and dust.
Structure and characteristics

The features described here are typical of products in this range. Special versions may offer additional or varying features. A comprehensive description of the features of individual products can be found on our website.

1 ERCO daylight reflector
   - Downlight: cut-off angle 40°
   - Polymer, aluminium vaporised, mirror-finish
   or
   - Wallwasher reflector
     - Cut-off angle 80°
     - Polymer, aluminium vaporised, mirror-finish

2 ERCO LED-module
   - High-power LEDs: warm white (3000K) or neutral white (4000K)
   - Directional luminaire with collimating lens made of optical polymer: 0°–20° tilt, 360° rotation

3 Diffuser or lens
   - Made of optical polymer
   - Diffuser lens, extra wide flood or lens system, washlight
   - Directional luminaire with Spherolit lens narrow spot, spot or flood

4 Cover ring
   - Corrosion-resistant cast aluminium, No-Rinse surface treatment
   - Silver, double powder-coated
   - Safety glass

5 Housing
   - Cast aluminium, powder-coated silver
   - Mounting with 2- or 3-point contact and screw fastening, for ceiling thicknesses 1–30mm
   - Side-attached installation unit: polymer, black

6 Control gear
   - Switchable or DALI dimmable
   - Protection mode IP65
     - Dust-tight and water jet-proof

Variants on request
   - High-power LEDs: 3000K CRI 97 or 2700K, 3500K, 4000K with CRI 92
   - Reflector: coated matt gold, matt silver or matt champagne

Please contact your ERCO consultant.

Very high visual comfort

The daylight reflector combines maximum visual comfort with an optimum light output ratio.

Special characteristics:

- Excellent visual comfort
- Excellent thermal management
- EMC-optimised
- Various construction sizes
- Different light distributions
- Different light colours
- Protection mode IP65
- Switchable
- DALI dimmable

Design and application: www.erco.com/quintessence-o

Technical Region: 220V-240V/50Hz-60Hz

Edition: 27.11.2019

Current version under www.erco.com/quintessence-o
**Downlights**

Extra wide flood

For uniform ambient lighting, the spacing (d) between two Quintessence downlights may be up to approximately 1.5 times the height (h) of the luminaire above the working plane.

Arrangement: \( d \leq 1.5 \times h \)

The wall offset should be half the luminaire spacing.

Arrangement: \( a = \frac{d}{2} \)

---

**Lens wallwashers**

Wallwash

For uniform vertical illuminance, the distance (a) of Quintessence lens wallwashers from the wall should be around one third of the room height (h).

Arrangement: \( a = \frac{1}{3} \times h \)

For good longitudinal uniformity, the spacing (d) of Quintessence lens wallwashers may be up to 1.3 times the offset from the wall (a).

Arrangement: \( d \leq 1.3 \times a \)

The optimal wall offset and luminaire spacing for each product are indicated in the wallwasher tables in the catalogue and the product data sheets.

---

**Directional luminaires**

Narrow spot, Spot, Flood

Accentuation

Quintessence directional luminaires accentuate artwork, products and architectural details effectively. The ideal angle of tilt (\( \alpha \)) for this is around 20°. The object is modelled without distorting the effect as a result of excessive shadowing. It also prevents shadows cast by the observer.

Arrangement: \( \alpha = 20° \)
Quintessence Recessed luminaires

**Construction size**
- Size 3
- Size 5

**LED module**
- Maximum output at 4000K CRI 82

**Light colour**
- 2700K CRI 92 *
- 3500K CRI 92 *
- 3000K CRI 92
- 4000K CRI 82
- 3000K CRI 92 *
- 4000K CRI 92 *

**Light distribution**
- Downlights
  - Extra wide flood
  - Narrow spot
- Directional luminaires
  - Narrow spot
  - Spot
  - Flood

**Control**
- Switchable
  - DALI

**Colour (housing)**
- Silver
