

Mounting device

Mounting instructions

English

 Read the instructions carefully before installation and commissioning!

 Leave the instructions for users/customers for future reference!

General safety information

 **Warning!**
Risk of electric shock!

Prior to maintenance, cleaning and installation work, disconnect mains cables and existing DALI control lines and check the power is switched-off.

Attention!

When installing, always observe the national installation and accident prevention regulations.

Intended use

Mounting piece „A“ for suspension to connectors (live ends, couplers, L-, T- and X-connectors) of ERCO track.

Mounting

1. Secure mounting piece „A“ to suspension „G“ or „B“ with grub screws „C“. Tighten the lateral grub screws „C“ to at least 1.8Nm.
2. Insert profiles „D“ in the upper side of the ERCO track and fix connector „F“ to ERCO track.
3. Lift connector „F“ up to mounting piece „A“ and slide profiles „D“ over the ends of mounting piece „A“. Make mechanical connection using screws „E“.
