One of the longest serving members of the team in Australia, Ana joined ERCO ten years ago, and can now boast enviable expertise on the Language of Light. Ana has witnessed the evolution of LED technology from its infancy, and enjoyed extensive professional lighting training at both the ERCO Ludenscheid factory and the Singapore regional office.

Currently managing events for ERCO Oceania, Ana is a presenter of Language of Light workshops, and regularly leads Project Tours through key illustrative sites around Sydney. She has also worked extensively on lighting projects advising on design and installation and putting Language of Light principles into action.

In her element in front of an audience, Ana is equally comfortable up a ladder perfecting the angle of a luminaire, and is known in the company as the go-to person for quickly sourcing accurate product data from across the comprehensive ERCO range.
