

Minnesota Marine Art Museum, Winona

Photographer: Julia Cawley, New York
Project location: Winona, USA

The Minnesota Marine Art Museum - MMAM - in Winona explores the historic and ongoing human relationship with water. The charming small town in the north-east of the USA is home to a large treasure of art documenting maritime life in centuries past. A core mission of the museum is to engage students and adults in meaningful visual art experiences through guided tours and programmes that explore this topic.
