

Architect: Terry Pawson, London
Lighting designer: Kress Et Adams, Köln
Photographer: Gustavo Allidi Bernasconi
Project location: Linz

Linz Music Theater

One of the most modern opera houses in the world is found in the Upper Austrian town of Linz. On four stages, it offers guests a choice of opera, operetta, musical and ballet. Its modern architecture is aptly underlined by ERCO luminaires. Precision lighting was a crucial factor to consider here, so as not to detract from the enjoyment of the cultural experience, but rather, to complement it in understated ways.
